

# Green EcoTech Limited

## Biomass Based Power Solution For Remote Villages & Fly Ash Brick Manufacturing Plant

# About Green EcoTech Limited

**An Initiative for  
introducing Environment freindly  
Technology for Rural  
Bangladesh**

# Project Was Submitted on 8th & 9th Design Lab Dated. 14/09/2013, 16/11/2013

# JVA with GTT Signed on 16/04/2015

# Use of Rice Husk & Other Bio Waste For Electricity Generation

# Use of Fly Ash For Producing High Quality Brick

# Constructed House By Fly Ash Brick

# Social Impact

**4 Villages, 2000 Family, 10000 People  
Are Connected With Electricity**

**Job Opportunity For Villagers**

**Easy Access To Information**

**Easy Access To Entertainment**

**Social Impact**

**Better Environment For Education**

**Better Lives For Rural People**

# Financial Impact

## Additional Income Generation For Farmers By Selling Rice Husk

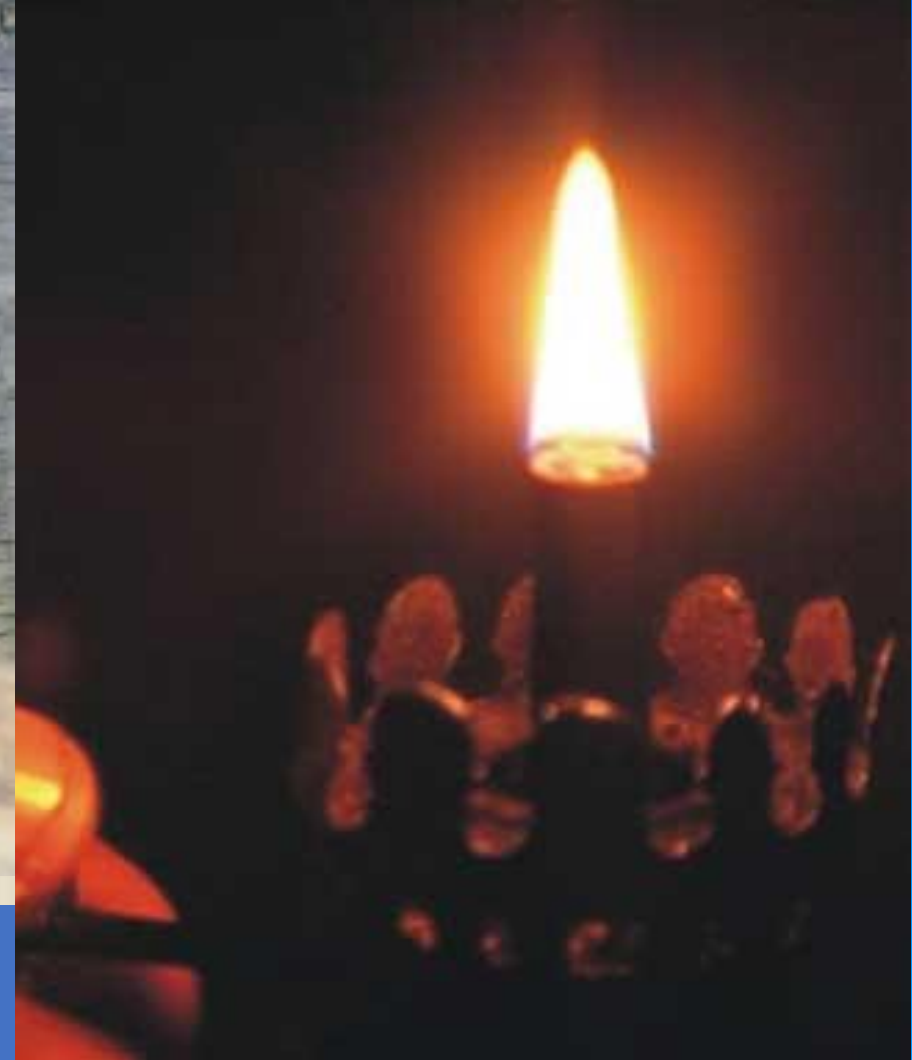

# Financial Impact

**Facility For Irrigation Water Pump**

**Savings Of Kerosine & Others Cost**

**Low Cost Green Housing for Villagers**

# Environmental Impact

**No Use of Wood**

**No Use of Coal**

**No Carbon Emission**

# Environmental Impact

**No Use Of Clay For Brick Manufacturing**

**Savings of Farming Land**

# Project is Based on Renewable & Recyclable Product

**REUSE**  
**REDUCE**  
**RECYCLE**

 **recycle**

The possibilities are endless.
